VOL. XXXVII NO. 31

County Auditor

1-1-19

WAUSEON, OHIO, FRIDAY, NOVEMBER 5, 1920

\$1.50 PER YEAR

UNPRECEDENTED REPUBLICAN VICTORY

Warren G. Harding Receives Largest popular Vote Ever Accorded a Presidential Candidate in the United States

For the first time in the history of the Nation the will of the womanhood as well as the manhood of the country was expressed by the ballots that were cast and that will of the vast majority was for the maintenance of the Constitution and the building up of a better stronger republic that shall stand for the progress of civilization, the protection of its citizens and the impartial administration of government in a business like, efficient and economical manner.

Messrs. Harding and Coolidge are leaders of the Republican Party were accorded a majority that is estimated to reach the unprecedented figure of 5,000,000. With the head of the ticket at a Republican Senate and House of Representatives have been returned making the Federal administration unquestionably Republican and making it possible to carry out the platform of the party's platform. In Ohio Frank B. Willis has received a majority as a candidate for U. S. Senator that will mount up into the hundreds of thousands. While Harry L. Davis is conceded the election as governor of the State by a majority ranging from sixty to one hundred thousand.

Henry County came over from the Democratic ranks to the Republican by electing all the Republican candidates to county offices with the exception of the Judge of Common Pleas Court, besides giving a nice majority to candidates on the National and State tickets. Defiance County also perpetuates a nice little surprise by electing republican county officials with the exception of Court Clerk and Probate Judge.

Mr. Thompson will receive a majority of 15,000 for re-election as representative in Congress from the fifth district. Fulton County hands Mr. Thompson the splendid majority of 4026.

The Tribune is holding over the publication of the table showing the detailed vote in the county until next week so as to give the official vote. The vote was overwhelmingly Republican and among the interesting features of the "Battle of Ballots" last Tuesday is the fact that the

candidates who were especially attacked; Mr. W. R. Ford for Sheriff and Dr. R. I. Bernath for Surveyor, will receive majorities mounting up to at least the 2500 mark. The vote shows that there were a good many voters both men and women who stayed at home and the results seem to indicate that they were mostly democratic voters.

The loyalty of men and women as individuals and as groups to party principles as against personal prejudice was made manifest and to the honor of the women let it be said that they held themselves open to argument and investigation, statements made before coming to definite conclusions. They made every effort to be fair and just in their judgments and to rise above personal bias.

The campaign has also demonstrated that in Fulton County there is just one STRAIGHT Republican paper. We are glad that there was not one candidate on the Republican ticket that the Tribune could not endorse and conscientiously work for. The Tribune stands for the principles and policies of the Republican party and will not be swayed by personal friendships or prejudices in matters of politics. We expect of every candidate on the Republican ticket that he be true and loyal to the declared principles and pledges of the party in honor bound to perform his duties in accordance with those principles and to fulfill to the extent of his ability those pledges if elected.

A great and important responsibility for the welfare of the nation and the continuance of a government of, by and for the people (all the people) has been laid upon the Republican party; already its enemies are sneering that four years from now the Republican party will face disaster and defeat because of its failure to perform the herculean task that is imposed upon it. The task is not of our making, the deplorable conditions which exist are not the result of the application of Republican principles. Following the example of publican and among the interesting features of the "Battle of Ballots" last Tuesday is the fact that the

HARRY L. DAVIS
Governor Elect Receives
Majority of 2672 in Fulton
in Spite of bitter Opposition

POULTRY IMPORTANT

Fulton County with about 250,000
hens stands high among the counties
of the state in the importance of the
poultry industry.

In spite of the foregoing facts, we
have done little in this county to
improve the flocks and increase pro-
duction by systematic selection,
breeding and feeding.

The opportunity for improvement
is great. The average egg produc-
tion in Ohio is less than 100 eggs per
hen per year, yet some flocks are
averaging 200 eggs per hen per year.

The question arises what is the reason
for the low average production and
the high possible production.

The reasons are about the same
as they are for the low average milk
production per cow and the high
possible production only the poultry
industry is under an additional hand-
icap from the fact that it is too often
looked upon as of less importance
than dairying, livestock and other
farm projects.

A few things which can be done to
increase the production of our flocks
are as follows:
1. Keep a record of the receipts
and expenditures so that you know
what your income is from the flock.
2. Cull out unprofitable birds
whether hens, pullets or cock birds.
3. Feed regularly a ration which
is most conducive to egg production.
4. Provide plenty of clean, fresh
water, unfrozen in winter.

5. Keep the birds in a clean well
ventilated house with plenty of light
plenty of nests and plenty of room
at the feed hopper.

The Poultry Department of the
Ohio State University is "carrying
on cooperative work with poultrymen
in different parts of the state and it
is proving very helpful in improving
the flocks and increasing production.
The work costs the poultry depart-
ment and receives much helpful ad-
vice and suggestions.

Any poultryman in Fulton County
who desires to take up this cooper-
ative work should get in touch with
the county agent who will be glad
to furnish further information.

R. A. Cave, County Agent

GRIME—WESTHOVEN
Miss Viola Grime of Archbold, a
sister of Mrs. E. F. Lauber formerly
of Wauseon and Mr. Albert West-
hoven of Napoleon were united in
marriage at St. Peter's Catholic
church in Archbold by the pastor,
Rev. Fr. Carroll, Wednesday morning
November 3rd.

23rd. 31-2-c

YOUR CHILD IS A CRIPPLE

Hear Brewster

Any parent has a right to resent
the above statement until taking a
second thought. The child that is
hindered from reaching the highest
development possible is a cripple by
just that much.

The County Red Cross wants to
help your child. In the campaign for
membership in the County Red Cross
which will be waged next week, two
goals are aimed at. By supporting
the organization by enrolling as a
member you will enable the local or-
ganization to hold for use in Fulton
County the funds now in the treas-

ury and you will also enable the Red
Cross to secure the services of a
trained County Welfare Nurse.

Dr. Brewster, of Cleveland, a man
who served on an investigating com-
mission in Europe, a man of success-
ful experience on the Chautauqua
platform and who is now giving his
time to the Red Cross will speak in
behalf of this movement next Sun-
day evening at 7:30 in the High
School auditorium.

As an angel of mercy the Red
Cross was present in the war. In
peace time she seeks to serve. Her
field of service will be measured by
the support given her. Hear Brew-
ster and help.

For United States Senator HON. FRANK B. WILLIS
